Overview of Course Content

TRADE 5000: International Trade

Negotiations and Agreements

Module I: Trade in the Modern World - 19 March 2008

This module provides basic economic background to the gains from trade as well as an understanding of the key principles that underpin the World Trade Organization (WTO) and the WTO system. The interaction of social issues and the trading system is discussed and case studies both of new developing countries manage the challenges of participating in today's globalized economy.

Module II: Trade Agreements and Instruments of Trade Policy - 5 April 2008

The module looks at the effects of multilateral trade agreements, the WTO system and how the main trade policy commitments are achieved by governments. The module explores the development of international trade agreements, including regional trade agreements, and the role of global trade institutions, such as the WTO, GATT and UNCTAD. The module will consider the role of multilateral and regional trade agreements and the interaction of trade and aid. It will also explore the role of regional trade agreements in the trading system.

Module III: Negotiation of Trade Agreements - 2-5 May 2008

This focus of this module is on how trade agreements, at the multilateral, regional and bilateral levels are negotiated, with a special focus on business opportunities to trade and commercial implications for business.

Module IV: International Trade: Strategies and Opportunities - 8-9 August 2008

The focus of this module is on how trade agreements at the multilateral, regional and bilateral levels are negotiated, with a special focus on business opportunities to trade and commercial implications for business.

Module V: Practical Aspects of International Trade - 5-6 September 2008

The module looks at how trade agreements are implemented and the provision of assistance to exporters and importers. It also explores the role of the World Trade Organization in the global trading system.

Module VI: WTO's "New Issues" - 20-21 November 2008

The module looks at the role of the WTO in the global trading system and how the main trade policy commitments are achieved by governments. The module explores the development of international trade agreements, including regional trade agreements, and the role of global trade institutions, such as the WTO, GATT and UNCTAD. The module will consider the role of multilateral and regional trade agreements in the trading system.

Professional Certificate in International Trade

Why Study for the PCIT?

Whether you’re looking at a career in finance, marketing or strategy-dominated companies, or in governmental agencies, or in non-governmental organisations, or in international trade and business, the PCIT aims to prepare you for the future.

In the majority of cases, the PCIT is pursued as a semester/cumulative course by students seeking a career in international trade and business. Issues such as economic and environmental issues, are forcing businesses to engage in international trade and business.

Why choose the PCIT?

Why choose the PCIT?

In order to leverage commercial opportunities arising from new and emerging free trade agreements, international trade disputes are creating new and over-lapping free trade agreements. Concerns over social and environmental issues are forcing businesses to engage in international trade and business. Issues such as economic and environmental issues, are forcing businesses to engage in international trade and business.

What are the benefits of the PCIT?

What are the benefits of the PCIT?
